Q: Probability of success (max score) in a four player game A tennis match comprises two sets of doubles. If the score is tied at 5-all in the first set, a sudden-death tie-break is played, with the following rules: The first player to score two points wins the game. If the score is tied again after the first point of the tie-break, the next point is decided by a coin toss. If the outcome of the coin toss f30f4ceada
