"ComBOTS" is a free PC application for Windows, and comes bundled with a set of premium Character Sets. A character can be changed to a variety of looks, in order to match your mood, your need for fun or to make you look different to your friends. A range of animated "Emotions" (Emoticons) let you express your emotions at any time and in any way you want. So if you want to be a mischievous cat,

feeling mad and enjoy a wild ride, you can be him. And if you want to be a kind and generous teacher, you can also be that too, without having to give up your personal identity. ComBOTS is a personal tool for communicating and a tool for fun. It is a tool for changing your mood, your emotion and your personality. Every message your friends send you is sent via "ComBOTS" and even those from you. ComBOTS is not a chat program that you simply talk into. Instead, your friends use

ComBOTS to chat with you, to send files to you and to gather you into their Favorites and their Characters. It's up to you. Now, turn up the volume! "ComBOTS" is made for both the desktop PC and the Laptop. It works on all operating systems of Windows. For more information and a live demonstration, visit us at "ComBOTS" is distributed under GNU GPLv3. "ComBOTS" Communication Tool - "sister of the bot" "ComBOTS" is a direct clone of the "sister of the bot"

"bloxspy" and is absolutely free. But it offers many more features, while "bloxspy" just allows you to visit other users and install a bot in their profile. "ComBOTS" is not a bot, and does not spread any malware or malware. In fact, it does the exact opposite. It helps to find and communicate with friends, without them ever knowing that you had access to their account and its profile. What is "ComBOTS"? "ComBOTS" is a communication tool that allows you to communicate with friends and

even talk to them. But it goes beyond E-Mail, just as instant messaging - "IM" - goes beyond E-Mail. "ComBOTS" is a little bit of E-Mail, a little bit of
